- We don't sell decaf coffee. Sorry, it's just...decaffeinated.
- This coffee is never, and will never be, pre-ground. The best way to ruin good coffee is to grind it weeks-even months-in advance. Be kind to yourself; purchase a grinder and grind just before brewing. If you can't taste the difference between fresh-ground and pre-ground coffee, there's no point in spending your hard-earned dough here. Buy your coffee in a can.
- Yes, we occupy an utterly snobbish position. It's fun.

ROD SHOP ROAST

Fine Ugandan bean, meticulously harvested, is sun-dried & hand-sorted before arriving at our custom roasting facility. Here the beans are toasted until the sugars caramelize and the rich, essential oils migrate to the surface. The result? Rod Shop Roast, a full-bodied, fully caffeinated, custom coffee that builds in smoky sweetness as it floods the palate, then fades into a pleasantly spicy finish. And the aroma? Have we mentioned the aroma? It is that of coffee.

BLIND DUCK BLEND

When you need a sharp eye to ID the wing'd silhouette, a quick mind to calculate the lead, and a lightening pull of the trigger, you need Blind Duck. Eschew the soporific stew pumped at the local gas station convenience store & brew your own Blind Duck. It's high test, yet pleasantly smooth. It exhibits all the complexity you'd expect from Golden Witch: four beans, perfectly roasted, perfectly blended. Blind Duck is an indulgence in the field, an idyllic icebreaker in a frigid duck blind. And if, perchance, you're stuck in the office, the aroma will call to mind better mornings spent afield. Blind Duck - so you can see the day ahead!
